

An opportunity for Wisconsin 8<sup>th</sup> graders...

**Instead of thinking this...**

I can't go to college because no one in my family ever went to college.

Grades don't count as a freshman.

I can wait until I'm a senior to worry about what I will do after high school.

I can't afford college so what's the point.

**Think this:**

**I'm going to work hard in high school and then I'm going to college.**

The Wisconsin Covenant is a promise to every Wisconsin 8<sup>th</sup> grader that if they are willing to work hard during high school, there will be a place for them at a Wisconsin university, college, or technical college and a financial aid package if their family needs it.
